PEACHES
IGRE PACKING
COMPANY.

At this season of the year when fresh fruit is unobtainable except at prohibitive prices, you can still procure from your grocer our tinned peaches which are as good as fresh gathered fruit and as cheap as ever. Although there are several so called "Tigre" Brands, ours is the only one bearing the "Tiger" upon it, and this we can guarantee as being of the very best obtainable fruit.
The process of canning renders these peaches more wholesome than fresh fruit, and they are specially recommended for children and invalids.
We do not consider it necessary to quote testimonials, but ask you to do us the favour to obtain the opinion of your medical man.

STATISTICS OF URUGUAY.

The republic of Uruguay possesses, like Argentina, a well-organized Statistical Department, superior in many respects to those of various European kingdoms, and worthy to rank with those of Great Britain, France, Germany, Belgium or Italy. The report just issued for the year 1890 is a ponderous volume of 600 pages, which might be advantageously reduced to a pamphlet of 50 pages. We summarise its contents as follows:—

Population. The estimated number of inhabitants is 706,500, against 438,200 in 1879, shewing an increase of 61 per cent in 11 years, say 5 per cent yearly. The department of Montevideo, comprising the capital and suburbs, figures for 234,000, or one-third of the total, whereas Buenos Ayres only stands for one-eighth of the population of Argentina. We cannot be surprised, therefore, to find that the rural departments are very thinly populated, all of them shewing less than 10 inhabitants per sq. mile, except Canelones, which has 40. The register of vital statistics shews as follows:—

	1889	1890
Births	26,981	27,899
Marriages	4,175	4,082
Deaths	12,362	14,473
Natural increase	14,619	13,426

The birth-rate and death-rate in recent years have been as follows:—

	per 1,000 pop.		
	Births	Deaths	Increase
1886	41	24	17
1887	41	24	17
1888	40	25	15
1889	39	25	14
1890	39	25	14

It apppears, therefore, that the natural increase averages 15 per thousand and as the total increase of population is about 50 per thousand (or 5 per cent) the influx of immigrants must have been about 35 per thousand of the population. In 1890, however, the total increase was only 22,400, from which it appears that immigration stood for no more than 9,000. The marriage-rate last year was under 6 per thousand (5·8), which is lower than in any European country, except Ireland (4·5), but this is partly accounted for by the fact that the thinness of population and great distance from town renders it difficult for the people to get married, and hence we see that 20 per cent of births are illegitimate, viz:—

Legitimate	22,524
Illegitimate	5,375
Total	27,899

Of the persons married in 1890 more than 60 per cent were native Orientals, viz:—

	Men	Women.
Natives	2,067	2,929
Italians	770	462
Spaniards	608	329
Brazilians	250	149
Various	387	213
Total	4,082	4,082

The marrying ages were as follows:—

Years.	Men.	Women.
Under 20	59	1,458
20 to 30	2,596	2,200
30 to 50	1,349	402
Over 50	78	22
Total	4,082	4,082

The greatest number of marriages took place in May, the least in December, and here we may observe that the greatest number of births was in September, the least in January and February. The returns of mortality shew the ages in the following per-centage table—

Age	Ratio
Under 3	41·8
3 to 15	10·3
15 to 20	4·1
20 to 40	15·8
40 to 60	13·0
Over 60	15·0
Total	100·0

Immigration. The arrivals and departures were:—

Year	Arrived	Left	Gain
1887	53,500	48,800	4,700
1888	75,200	57,800	17,400
1889	89,900	63,900	26,000
1890	79,900	70,500	9,400
4 years	298,500	241,000	57,500

Commerce. The returns for 5 years shewed:—

	Imports	Exports	Total
	$	$	$
1886	20,200,000	23,800,000	44,000,000
1887	24,600,000	18,700,000	43,300,000
1888	29,500,000	28,000,000	57,500,000
1889	36,800,000	25,900,000	62,700,000
1890	32,400,000	29,100,000	61,500,000

The ratio of trade with the several countries was in 1890 as follows:—

	Imports from	Exports to
G. Britain	27.2	13.6
France	15.7	21.0
Brazil	7.6	11.3
U. States	7.6	6.9
Belgium	4.6	10.8
Germany	8.7	3.5
Various	28.6	32.9
Total	100.0	100.0

The port of Montevideo stood for 89 per cent of the imports and 57 per cent of the exports. The current of bullion for the year shewed: receipts £1,600,000 sterling, shipments £1,550,000, leaving £50,000 in favor of the former.

Port-entries and sailings at Montevideo were:—

	Entered, tons	Sailed, tons
Ocean steamers	1,400,000	1,380,000
Do. sail-vessels	410,000	400,000
Coast-craft	1,730,000	1,840,000
Total	3,540,000	3,620,000

Revenue. The year ending June 1890 shewed a total revenue of $17,400,000, say £3,600,000, being an increase of $1,720,000 or 10 per cent over 1889.

Debt. The amount on Dec. 31st was $89,850,000, say £19,000,000 sterling, being an increase of $8,600,000 or nearly 10 per cent during the year. The debt has been recently (October 1891) found to reach £21,400,000 stg. equal to £30 per inhabitant.

Wealth. The amount of property on which tax was paid in 1890 shewed as follows:—

Owners	No.	Amount	$ each
		$	
Natives	22,774	119,200,000	5,200
Italians	8,246	34,000,000	4,100
Spaniards	7,158	31,100,000	4,300
French	2,582	15,800,000	6,000
Argentines	936	8,800,000	9,400
British	494	7,600,000	15,400
Germans	328	2,900,000	9,000
Various	5,274	37,100,000	7,000
Total	47,792	256,500,000	5,300

The total represents about £54,000,000 sterling, equal to £77 per head of the population, but the actual wealth of the country is at least 60 per cent more than the above figure.

Real Estate. Sales of houses and lands shewed:—

	No. sold	Value, $
1888	9,803	35,100,000
1889	9,656	63,500,000
1890	9,616	29,300,000

The fall of value after the "boom" is shewn in the fact that each property in 1889 averaged 6,600$, and in 1890 only 3,000$, a decline of 55 per cent. The fall in 1891 will doubtless be found still more alarming. Existing mortgages shewed:—

	No.	Amount, $
1889	3,150	27,800,000
1890	3,990	22,600,000

Education. The returns are as follow:—

	1889	1890
University students	692	548
Boys at school	18,038	21,841
Girls do. do.	14,688	16,906
Total	33,418	39,265

The number of State-schools has increased from 341 in 1886 to 470 in 1890, besides 407 private schools, with 21,400 pupils, not included in the above table.

Hospital. The Caridad Hospital of Montevideo received 6,840 patients during the year, of whom 635 (say 9 per cent) died. There were only 1,491 natives admitted, the rest being foreigners.

Insanity. The Lunatic asylum contains 424 men and 305 women, in all 729 persons, or a little over 1 per thousand of the population, which is about the same as in Southern Europe. In cold countries the average is 3 per thousand, and in G. Britain still higher. The asylum in Montevideo had 74 deaths, being over 10 per cent yearly, the death-rate of insane in Europe being about 9 per cent.

Mendicants. The Poor Asylum has usually 334 mendicants, deaths last year 54, say 16 per cent. The Foundling House received 276 infants during the year, of whom 146 died, say 53 per cent.

Crime. There were 615 supposed criminals sent to prison in 1890, of whom 50 were women, for the following crimes:—

Murder	97
Stabbing	195
Robbery	96
Fraud, riot etc.	227
Total	615

Railways. In September 1891 the lines shewed—

Miles open	980
In construction	190

The mileage open in 1887 was only 335, shewing an increase of 645 miles in four years. The tramways of Montevideo carried 20,300,000 passengers in 1890.

Post-Office. The number of letters etc. carried was:—

Letters	6,200,000
Papers	14,300,000

There are (including private lines) 3,500 miles of telegraph, which carried 230,000 messages in the year. There are 3,200 telephones working in Montevideo, carrying 17,000 messages daily and employing 158 persons.

OUR LONDON LETTER.

MR. BALFOUR ON PROGRESS.

(From our own Correspondent.)

Nov. 27th.

You will be disappointed with the European mails. Busy at your roulette table and absorbed in the hand to mouth transactions of ordinary colonial life, you will not care much for unsensational local news, political speeches at Birmingham, and the lay sermon of the Reverend Arthur James Balfour at Glasgow. But these things are nevertheless of supreme interest at this moment; and it is only at such a juncture as the present, when the wheels of State and Industry are running smoothly, that we hear the faint voice of the World-Spirit that moveth all things; and stop to inquire if the voice cometh from above, or from within us, or be only the hum of the blind forces of nature. It is not too much to say, that the speech of Mr. Chamberlain at Birmingham, in which he renounced the Liberal faith and proclaimed his reception into the bosom of the Tory Church, and the serious speech of Lord Salisbury on the present state and duties of political parties, have been cast into the shade by the First Lord of the Treasury's rectorial address to the students of Glasgow University. The subject Mr. Balfour selected was Progress; and he treated it as became a Scotsman of culture in addressing an educated Scottish audience accustomed to view questions in the abstract. The Scot is not always successful in keeping his subject well aloft in a dry light. His temperament—"perfervid" as he calls it—is opposed to the calmness of his intellect. With him, philosophy is a religion, or is apt to become so, and the pursuit of truth is thus often sacrificed to over cautiousness begotten of self-interest or to some of those very prejudices which from his own point of view it seemed to be Mr. Balfour's object to destroy. The sentiment of nationality is also an element in the Scottish character that is likely to deflect the mental vision. In reading Mr. Balfour's clever address, the least cultured amongst us could not help noticing the attempt to wean us from the newer learning and carry us backwards to Chalmers and Dugald Stewart, if not to Reid. Moreover, Mr Balfour, in affecting an abstract view of the Progress and destinies of Nations, could not disguise the political and class bias which at times gave the lie to his philosophy. This is the immediate point the politician has to attend to. Mr. Balfour is a musician, and he would understand what is meant, were it said that his whole address was accompanied by the same "pedal discord" that those who can hear, hear in all Lord Salisbury's speeches, and indeed in modern works on political economy, and wherever an intelligent mind attuned by habit to certain keys, feels and knows that the world is modulating in other directions. In British politics the time has come which has been long foreseen. The old parties are breaking up. The mass of opinion descends together into a new plane. Old dissensions, old shibboleths are about to be revived under new names. Meanwhile, what remains is foundational in our nature. As Mr. Balfour tells us, "Society is not founded upon criticism, but upon feelings, beliefs and customs." Mr. Balfour admits that what he calls "criticism" is an important element in the formation of opinions. That must be so; otherwise we should have to ignore the value of human intelligence, and our codes and customs would never vary. In fact Mr. Balfour's dictum is only a half truth. There is a similar case in Art. We are told that the basis of works of excellence is genuis. But genius without knowledge and intelligence is insufficient, and often ends in vagary and in the amorphous. What genius does is to give a certain bias and direction to our work, and to bestow character and individuality upon figure, song or picture. Mr. Balfour can claim no more for sentiment in a political community. In its crude state sentiment is now as it was in the days of Cain and Abel, and as phrenologists would tell us, just as likely to be perverted by a want of balance amongst the different organs, animal, sentimental, or intellectual. The rest, with great deference to Mr. Balfour, is a question of "criticism," education and the restraint of the higher class of sentiments including veneration, all subject to what Mr. Balfour makes a great point of—"conditions." And it is here we notice the dissonant drone of his "pedal note." He makes the customary allusion to the changed conditions of the world by the discoveries of science and pretends to laugh at the "light-hearted way in which many persons sketch out their ideas of a reconstructed society and exhibit an almost comic ignorance of our limited powers of political calculation." Mr. Balfour in his exquisitely superficial manner is no doubt inwardly referring to men like Owen, Fourrier, Rodbertus, Mart and Wallace and perhaps our own young Fabians. Some of these were great mathematicians and men of science, others of them have traced historically the advance of science and exhausted the question of those altered conditions Mr. Balfour only touches with his gloved finger-tip; and none of them, except poets and novelists, have ventured in later times to "sketch out" any ideas at all of a reconstructed society, as they quite understand the process of evolution. The difference between them and Mr. Balfour, who does not discourage "effort," is that they use evolution as a lubricant, whilst he would make a check of it to stop the wheels of progress, as his ancestors may have seized certain truths in political economy, as his uncle the Prime Minister does still, to maintain the sacredness of property and the inviolability of contract, in the interests of the rich. We all of us read, as Mr. Balfour may do, the recently published lectures of Mr. Thorold Rogers and the latest essays of our red-tie professors of political economy at Oxford and Cambridge, as well as the criticisms of the Vienna school of economists, and we are quite prepared to pronounce the disquisitions of Mr. Henry George to be founded on sentiment and an incoherent longing for an ideal, and Karl Marx's theories of value and unpaid labour to be erroneous. But the point is that their errors, supposing them to be such, are part of a movement to the force of which their sentiments and "criticisms" have contributed—a movement that has become too decided to be sneered down as heretofore, and whose very proposals are put in practice by its antagonists in self defence. Mr. Balfour, like the rest, unable to disprove political calculations he himself asserts to be incapable of being formulated, falls back upon obsolete historic parallels and an equally obsolete school of metaphysics to establish the pessimistic doctrine already enunciated by Matthew Arnold, that "nature on this planet affords us a small margin of improvement." Mr. Balfour does not believe in a political millennium, and may think the idea absurd in a planet that some years hence may roll in space a glacial waste or an uninhabited cinder. This is exactly the dandy philosophy of culture, as enlightened by a smattering of science that has pestered us for the last five and twenty years; the philosophy of university cubs, who are something more than grocers and considerably less than philosophers. It is a philosophy that would neutralize that "effort" Mr. Balfour is still graciously pleased to encourage. It is a philosophy opposed to the fact, that if the type of human nature has not sensibly changed in historic times, it is within a life's experience of some and the knowledge of all, that the conditions under which we live have so changed wherever there is freedom of thought and action, that there is nothing utopian in looking forward to an amount of well-being amongst the many in the next century that is enjoyed only by the few in this. Those who have "sketched out reconstructions of society" have had no higher ideal. They differ from Mr. Balfour and his supercilious friends only in one respect; their vanity and sense of superiority are not wounded by the thought of the distribution of pleasures, "academic" or material, amongst their fellow-creatures.

LATEST FROM MONTEVIDEO.

Jan. 4.

Government has instructed the Custom House Director to set apart every day 45 per cent of the returns for the service of the foreign debt.

Considerable dissatisfaction has been caused here by the resumption of the cattle-tax by the Brazilian Government. It may be remembered that, in view of the prevailing misery, the Brazilian Government decreed a suspension of the tax during two months. The two months have now expired, and the resumption of the tax is a very heavy blow to cattle-dealers and all concerned in the cattle trade. In Rio Grande too considerable dissatisfaction has been created. The question is likely to give rise to diplomatic protest. At Pelotas a popular meeting has been held to protest against the obnoxious tax.

The new guard decreed for the President are now installed in the President's house.

The Italian barque Lagaruna, which arrived on Saturday, has been placed in quarantine, as one of the crew died shortly after the vessel left Rio. The rest of the crew are well. The Captain states that the victim in question fell from the topmast and was drowned, but the Health Board refuse to believe this story.

The Spanish Romerias in the Prado were brought to a close last night.

It is officially announced that the promotions in the army are only 22. This announcement appears to have caused satisfaction in political circles.

The Deputies began to-day the discussion of the Uruguay Bank project. Telegrams from London state that the capital of the Bank has already been subscribed, and one million sterling will be shipped shortly.

The weather is excessively hot.

PROVINCIAL NEWS.

The resignation of Dr. Tristan Malbran, Finance Minister, is the latest news from Cordoba. His successor is Dr. José Figueroa Alcorta. We suppose he won't remain long in the thorny post, for no man can stand provincial finances very long. The recipient of the finance portfolio, as a rule, accepts it with satisfaction. He is full of excellent ideas and excellent projects and excellent everything, for which reason he is styled His Excellency. But he soon gets a headache, a financial one, and resigns. The resignation of a Finance Minister is the commonest of provincial occurrences. The Queen Province affords at regular intervals unmistakable proof of the instability of finances and the mutability of Finance Ministers. Yet the post is always as easily filled as it is vacated. We suppose there is a joy in finances which only Finance Ministers know, but it is a brief one. Success to the new Minister in Cordoba is our sincere and stereotyped wish

The Provincial Bank of Cordoba, about which the less said the better, has obtained a moratoribus (sounds like moribunds in the distance) for one year, a circumstance that may perhaps make things easier for the new Finance Minister. It is astonishing how easy it is to get along when you have nothing to pay, or declare you have nothing to pay, which is more or less the same thing in these latitudes of financial innovations. What is still more astonishing is that the National Bank note is at a premium in Cordoba. Yes, at a premium, 26 per cent premium—not, however, as compared with gold, but with the "bono," a name given to some peculiar kind of worthless paper issued by the bank in moments of great distress, and so called from the fact that the paper in question was issued 'pro bono publico.'

Telegrams from Rio Cuarto state that the Chief of Police at General Roca has been murdered by a subaltern. There are no details yet. Murders are very frequent, too frequent, in the provinces There appears to be very little respect for life, and even less for property, to judge by the impunity with which robberies are perpetrated. All this has got to be changed. We believe there is more respect for human life in the centre of Africa than there is in some of our provinces. A little more activity on the part of the police, and a little more energy on the part of the more peaceful inhabitants would tend to stem the tide of crime in the provinces.

The Santa Fe authorities have succeeded in capturing Mr. Joseph Aguirre, who was engaged in the lucrative trade of opening registered letters in Reconquista.

The electric light light in Santa Fe has proved a failure, and the Municipality has returned to kerosene.

Our Rosario exchanges are much alarmed at the warlike rumors, which are circulating in that usually quiet town. We note, moreover, that public opinion is somewhat ruffled by the reports that the Santa Fe Government, not content with leasing, is now thinking of selling the provincial railways.

PASSIONIST FATHERS.

The Very Rev. Father Fidelis has returned to Buenos Aires after an absence of a year and has brought with him four other Fathers and a lay brother to take the place of those who were sent away to other parts or who died.

At first the Passionist fraternity consisted of Fathers Fidelis, Clement and Martin. Father Clement died and Fr. Martin went to Rome. Then, came Fathers Edmund, Eugene, Lewis and John Joseph. Of these, Fr. Lewis is now Superior of the Order in Valparaiso. The house of the Order is in Viña del Mar. Father Edmund has just been called home and will leave in April next for the States. Father Eugene is nearly always at the house of the Order in Salto, thus leaving only Father John Joseph at the Irish Church in this city.

The next arrivals were Fathers Constantine, Victor, and Ciprian. Of these, Father Constantine always remained as superior at Holy Cross, and Frs. Victor and Ciprian were sent to Salto. About this time two other priests joined the Order. The Italian Father is now in Chile and the Spanish Father returned to Spain, suffering from heart disease and probably is not alive at the present moment. Soon afterwards, two young priests were ordained in this City, viz., Father Adrian, who has recently died in Dublin, and Father Andrew, who left here for Paris shortly after his ordination and is, we believe, now in Dublin.

The new comers are Fr. Stephen Kealey, Irish; Fr. Morris Smith, North American; Fr. Silvester Harrington, North American; Fr. Celestin Brady, from Belfast, and a lay brother Alfonso Kiley. These are all quite young and strong men and will be a great help to the other three or four priests who will remain in this city.

By this list it will be seen that there have been 18 priests in the order here, who may be put down as follows:—Caridad, 8; Salto, 2; Chile, 2; about to leave, 1; dead, 2; gone home, 3.

The amount of good done in Buenos Aires by these 18 priests is simply incalculable, and the ever-increasing English-speaking population will leave always much work to be done. The hardest workers are Frs Constantine and John Joseph, especially the latter, who never goes out of town except for a day, and never has a vacation.

The building of the Church is proceeding slowly, for want of funds; a portion of the roof is completed.

THE BUENOS AYRES CEDULAS.

To the Editor of the Daily *News*.

Sir,

The London Committee of Argentine Cedula Bondholders appear to have information that the cedula coupons on Buenos Ayres bonds due in January, 1891, were payd, less 20 per cent tax, 80 per cent. in currency (the tax is stated to have been illegally imposed). Those due in April, 20 per cent. in currency and 80 per cent. in certificates; in July, 15 per cent in currency and that 85 per cent. is to be paid in certificates. I do not learn that the October coupons have been paid in any way. I am, in common with many others, acquainted with the general conditions under which the Credit Foncier in Paris make grants on mortgage, receive instalments by way of repayment and interest thereupon, and, having issued bonds at a rate that returns a profit to the institution, redeem those bonds by drawings at calculated periods, so as to extinguish their own borrowings pari passu with the termination of the mortgage loans granted in the first instance.

The Banco Hipotecario of Buenos Ayres was formed on the principle above explained. It is certain that up to the close of 1886 the Cedulas issued to borrowers against the mortgage of their properties were secured upon adequate security; and it seems probable that the later issues were made upon properties valued at inflated prices, represented more or less by the lower relative values at which those issues were quoted when negotiated upon the markets at Buenos Ayres and in Europe. If this had not been the case it is presumable that borrowers upon mortgage in Buenos Ayres would have exerted themselves to pay the interest and instalments upon their borrowings, and that default would have been visited by the realisation of the property mortgaged. Bonds issued and redeemable in such small proportions as those allotted to the redemption of the various series of Cedulas should meet no difficulty in the way of drawing and redemption; nor should the regular payment of the coupon be a source of disorder.

If the organic law, which is admirably framed and under which security should exist, had been observed even in its relation to the administration of properties affected to the several series, some series would even now be in the receipt of dividend at its due period, for it must be certain that the mortgagors under series up to I., and perhaps to J. inclusive, pay the interest and instalments due, or forfeit properties which even now would realise more than the balance owed upon them. But all series are suspended, or, upon the same footing, so far as dividend payment is concerned; and obviously such treatment is unjust. Equitably, when the guarantee of the Province fails, and when that of the Bank fails, recourse must be in each series against the properties earmarked, each to its own issue. But it is rumoured that coupons of all series sent from Europe find a market in Buenos Ayres at about 25 to 30 per cent., and are used to pay the debt of Buenos Ayres Mortgagors to the Banco Hipotecario. I do not say it is so, but if this be the case it looks like a fraudulent collusion between two parties to keep what is due to a third party out of his hands.—Your obedient servant.

RAILWAY ITEMS.

Mr. James Temple, who holds the concession for a narrow-gauge railway from here to Rosario—the concession was granted towards the end of 1887—has applied to Government for three years' extension of time to carry out his contract. Mr. Temple, in his petition, states that he is in communication with capitalists to launch a company, but that at present, owing to the crisis here, it is not possible to form a company in London.

We note that the Contaduria General has informed the Finance-Minister that it has only $320,210 gold, wherewith to pay the guarantee of the Pacific Railway. The Budget allows $395,730 gold for the guarantee of the Pacific Railway. Last June, however, the Government issued a decree ordering the payment of $407,880 gold, as guarantee due to that railway for the half-year ended Oct. 1890. In the meantime the Government have not paid the Company. We should like to know how this question is to be settled.

The Santa Fé and Cordoba Great Southern Railway Company announce in another column their change of address from Calle 25 de Mayo 130 to Calle Piedad 655, (altos), lately occupied by the Rosario Railway Co.

The Secretary of the Santa Fé and Cordoba Great Southern Land Company also intimates the removal of the Offices of this Company to the same number in Calle Piedad as above.

EDITOR'S TABLE.

The week opened yesterday with blasting heat, a hysterical gold premium, a sudden flabbiness in political rumours, and general praise of President Pellegrini's address to the players—we mean soldiers at the meat-cum-leather picnic on Sunday at Palermo. Some nervous people looked a little greenish and squeamish at the fresh yellow fever cases in port; but they were in a minority.

See advertizement in another column of time-tables for the races at Hurlingham to-morrow—wind, weather, wives, widows etc. permitting.

Messrs. Maers and Fishtein are fishing for business, as all good traders should do. Turkish cigarettes are their dream of bliss here below; and, having carried on their business in London, they flatter themselves that they will be able to treat the public well and deserve patronage.

We're passionately fond of music, in fact rave about it day and night; so it is easy to gauge our gratitude to Mr. F. C. Hartmann, the oldest music publisher in the country, for sending us "Elena," a pretty and elegant mazurka, by A. Carando, "La Fileuse" a celebrated study and one of the most effective compositions by Joachim Kaff, and "Argos", a Schottisch, by F. Partuferi, for two or four hands.

The new "boleto" rule on the tramways has brought the postage stamp to a front again as small change. Coppers have disappeared completely, as if by magic, since New Year's Day; and a further snag-up is looming ahead, as the Post Office authorities strongly object to the sudden and large demand for two cent stamps by the tramway companies, and refuse to sell; so a ten cent fare will soon be "de facto" the rule, through no fault of the Companies, but from sheer want of small change. The new "Wild Irishman" express car from Flores, via Piedad, is a tremendous success—for the Flores men; but it is painful to see the residents of Caballito and Almagro yelling in vain at the W.I. as he dashes past, to pull up for them. From the time the said Wild Irishman leaves Flores till it gets almost to the Plaza, there is not a seat to be had; so we implore Mr. Gunning, "por piedad!" to see what he can do in the way of a "Flying Scotchman" for Caballito and Almagro."

The inauguration of the Belgrano Polo Club on Sunday was an immense success. There must have been quite 500 people on the ground who had come from town, Flores and even Quilmes. The game was very fast and a real good one for the spectators to look at. Flores, owing to their being much better mounted than the younger club, as might be imagined, won a very closely contested game of 4 goals to 3. Mr. Hugh Scott Robson, as usual, played brilliantly and gained three goals for his side, his brother Ed. Robson and H. Bennett hitting the other two. J. F. Balfour (2) and C. C. Day scored for the losers. It is to be hoped that the "fiesta" will be the means of bringing in to the club many honorary members, as with time and a little money the ground will become a very pleasant lounge. Mrs. Maitland Heriot very kindly attended to the wants of the visitors in the afternoon tea line.

On Wednesday 6th inst. Lanus play B.A.C.C. at Palermo, and for the convenience of those playing, Mr. Hill, the popular Manager of the Pacific Railway, has consented to stop at Palermo the 10.10 from Central, by which train those playing are expected to go.

We have to thank Mr. James Begg for his kind subscription of $25 to the Rowsell Fund.

A tremendous crowd is expected at the Promenade Concert to-night, in the beautiful Turnverein Garden, for the benefit of the Germau Hospital. The Committee have wisely added to the attractions a gorgeous Christmas Tree which will probably snuff out all others in town: as in the C. T. line nobody can hold a candle to our German friends.

Government has rescinded with a stroke of the pen the outrageous subsidy of $5000 gold a month which the Spanish Transatlantic Company has enjoyed for nearly two years. The bare idea of paying a subsidy to any company, with scores of steamers that come and go weekly without costing the State a cent, is monstrous; but adversity will make us wiser.

The Rosas family, who own the big building in Calle Moreno where the G. P. O. business is carried on, have reduced the rent from $14,000 to $8000 per month. Good landlords.

Our gay and festive Lord Mayor has set his large and liberal heart on a new idea, to please the ladies. That idea is to light Calle Florida with electricity and have bands to play in the street every evening. Doubtless the enormous crowds that patronize the thoroughfare at night has put the brilliant idea into his lordship's head.

Rosario seems to be in a worse state than ever. The *Argentine News* says:—"At midday on Monday four English thieves were arrested whilst trying to commit a robbery in Dr. Federico Valdés's house in calle Rioja. It appears that one knocked at the door and asked the servant for something to eat. Whilst she went to Dr. Valdés, who was breakfasting, the 3 comrades entered and were just discovered carrying off a trunk containing valuables. All four were arrested, and lodged in the proper quarters."

The *Mercurio* of La Plata gives some curious particulars of the way in which the Senators and Deputies either defy or dodge the law that obliges them to reside permanently in the mushroom city. One Deputy, who resides at Temperley, is said never to have entered the Legislature, although he draws his salary with the utmost religiosity. A house in Calle 51 is officially given as the residence of seven

Dear Sirs—

"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to its EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.

The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."

Yours very truly

(Signed) **JOHN KELLIE.**

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Monday, Jan. 4th.

The gold market opened very firm this morning and showed intensely bullish symptoms; towards the close of the ring, however, the premium weakened and closed with a bearish tendency. Over fifteen thousand ounces changed hands for cash; the price opened at 61.40, rose to 61.50, but closed at 61.40. Sovereigns were very dull; six hundred only were sold at 18.95 and 19.

The week has opened with a headlong fall in Patriotic Bonds. About two hundred thousand were sold, prices falling as low as 57.70, but closing slightly firmer at 58. The cause of the sudden fall must be the unloading process going on in certain strong quarters; the fall is all the more unexpected as the subscription to the shares of the Banco de la Nacion Argentina is an advantage of which the holders of Patriotic Bonds will certainly avail.

National Cedulas were slightly active this morning and Series B were quoted as high as 90; Seriss A paper were done at 80 and Series D at 70. La Plata Cedulas were very weak; Series P opened at 32, but closed at 31.20. G, M and O closed at 30.80, L at 31½, and N at 30.60.

Spanish Bank shares were quoted at 86 and Bolsa Bank shares at 36. Nothing was done in Catalinas.

The leading feature of the week is the sudden fall in the rate of exchange. Drawers who had provided themselves freely at last week's high rates backed out of the market to-day and left takers high and dry. The rate on France and Paris is quoted to-day at 5.16½; drawers later on demanded 5.15 to 5.15½ fcs. Banking paper on London was done at 48¾d; the rate in the market was quoted at 49 d. to 49¼ d. Discounts remained more or less the same. Talking of discounts, the La Plata papers complain bitterly that the two Italian bank branches in that city charge 18 % per annum, an enormous rate of interest.

The following is a summary of the business effected in stocks and shares at the first ring to day:—

Advices from Bragado district are very satisfactory. Farmers state that the season has been one of the most remunerative on record; camps are in splendid condition; sheep and cattle are rolling in fat; the crops are good, and would have been exceptionally good but for late frosts and hail; the maize fields promise an unexampled return. The district has escaped the locusts, at least there are very few of them, and there is no fear of 'saltonas' or hoppers. Small farmers state that potatoes will give a great yield. Cattle are so fat that farmers care not to sell them, preferring to keep them for winter, when they may get higher prices than to-day.

The new partners in the firm of Moore and Tudor are Messrs. James Begg and Harry Tudor.

The announcement that five cases of yellow fever had broken out on the Chargeurs-Reunis steamer Cordoba did not produce any scare in the market; the news, however, has left an unpleasant impression. Very fortunately, the Cordoba brings neither passengers nor cargo; she came down in ballast from Santos and is now anchored in the Plate, ten miles from the Outer Roads, under watch of the Argentine war-vessel Maipu. The Health Board has given orders to remove the patients to the pontoon Singapore, which is now a floating lazaretto.

The Attorney General has sent to the National Government his report on the first results of the Official Committee appointed to investigate the accounts and standing of joint-stock companies in this market. The Attorney General states that the Compañia

direct to La Plata by steamers entering that port; but for some cause or other these very goods consigned direct to La Plata are unloaded at La Plata Grand Dock, stowed away in sealed waggons, to Buenos Ayres and then sent back to La Plata. This is a round-about way of doing business, and we wonder at the red-tape that causes so much inconvenience to merchants. This kind of thing explains how large ocean steamers line the La Plata Grand Dock, yet give no benefit to the place; the very cargo shipped to Europe by these steamers is sent up from Buenos Ayres by lighters.

The Pacific steamer Liguria, from Europe, left Rio Janeyro on the 2nd; she is expected at Montevideo on the 6th and is posted to leave same day. The steamer Potosi, of the same line, arrived yesterday from Valparaiso at Montevideo and left to-day for Europe.

An exporter bought to-day twelve thousand sacks of wheat at 13⅛ per 100 kilos. This is the beginning in this market of the export of grain, and as the crop will be much above the requirements of the country heavy shipments must soon follow.

Affairs in the produce markets ruled dull this morning; the arrivals were slightly heavier than the daily average of last week. Operations did not amount to much to-day.

Exchange was a shade weaker this afternoon: the sterling rate was quoted at 48¼ to 49d. Francs were done at 5.16 on France, payable in Paris.

The Banco de Credito Real bought in to-day by public tender 6,300 of its own shares at 20 to 22; these shares will be immediately burnt.

Messrs. Healy and Billinghurst resigned to-day their posts as directors on the Board of the Credito Real. Messrs. Fremery and Mihanovich have replaced them.

Cheques of the Provincial Bank closed to-day at 38¼ % discount, those of the National Bank at 26⅝, and those of the English Bank at 17⅛ discount paper.

"Bonos" of the La Plata Mortgage Bank were freely offering to-day at 18—say 82 % discount.

The gold market continued weak at the second ring, in spite of some uncomfortable rumours as to the march of local politics. Over eleven thousand ounces were sold for to-morrow: the price opened at $61, rose to $61.20, but closed more or less weak at $60.80. Sovereigns opened at $19 and closed at $18.85. Patriotic Bonds ruled weak at first, but managed to close at 58: the price for the 31st closed at 58.20. Casilnas lingered at 6.90. National gold Cedulas A were sold at 28¼. La Plata Cedulas tottered and fell all along the line.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

In the evening it was rumoured that political affairs in Mendoza were far from satisfactory. It appears that the Government and the Legislature of that province are at loggerheads, and that the latest dodge is to impeach the Governor and his Ministers. It was also rumoured that consignments of rifles had been sent from Chile to Mendoza to start some electoral row.

The fine Platense steamer Eolo is again on the route between this port and Montevideo; she looks brand new and has been fitted up with many improvements. Her popular old commander, Captain Bateman, has charge of her again. She looks fresh from Sauchie-Hall Street.

The Minister of Finance will issue a decree to-morrow explaining how the exchange of shares of the National Bank for National 6% bonds must be effected. The decree will order a special registry to receive applications which must be accompanied in every instance by the shares of the bank. The law stipulates that the Government will hand one national bond in exchange for two National Bank shares—the latter are rated at half their face value. This operation cannot be a profitable one to the Treasury. To-morrow's decree will stipulate that once the Government, by this process of exchange, holds 20% of the shares, the occupation of the present Board of the National Bank will be gone: a new Board will then be formed giving proportional representation to the Government share in the capital and the interests of the shareholders that may not yet have availed of the exchange at the time. We cannot very well see what rights the Government can invoke to proceed in this fashion, but the operation looks equitable, as the Government holds a large share of the capital and its interests may clash with those of the public who may be shareholders.

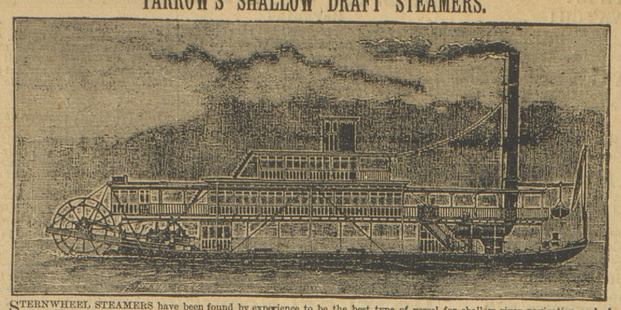
YARROW'S SHALLOW DRAFT STEAMERS.



STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. YARROW have constructed a large number of successful examples for all parts of the world.
Vessels on this system are constructed, when required, to draw as little as 6 inches.
Messrs. YARROW lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.
They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.
For full particulars apply to—

Read one of the latests testimonials :—

Estancia El Ombu
Ramallo, Oct. 21st, 1891

Messrs. Mackill, Murray & Co., Buenos Aires

Dear Sirs

I am **more than satisfied** with the result from dipping with **Laidlaw's Tobacco Powder**, and I may say that so is **Mr. C. Quesada**, owner of this estancia. I dipped the sheep (60.000) twice in **February** and since then have had hardly any work to do from hand-curing and the sheep are **perfectly sound to-day.** The cost of Dipping, including labour, was **$0.2[illegible] cents** per head or **$26.50 per 1000 sheep.** I have not tried it for hand curing, having a drum of 5 gallons on hand of another dip, and this has more than sufficed for all the hand-curing that has been necessary since **February last.**

I remain your sincerely
(signed) CHARLES R. KENYON.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

—As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.
Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Candil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

DR. J. COLLIS BROWNE'S CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880.
To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine, than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co.
Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworm to.—See the "Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmming medical testimony accompanies each bottle.
CAUTION.—Beware of Piracy and Imitations.

DAY. SON & HEWITT'S Veterinary Medicines

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—
Estancia Las Rosas,
Ferro-Carril Central Argentino,
10th Jan., 1891.
. I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.
The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.
Yours truly,
(Signed) W. KEMMIS.
